SOLAR RAKYAT SABAH

Empowering homes, Energising Sabah

Key figures

5 kWac

Single-phase limit

10 kWac

Three-phase limit

20 MW

Total quota, until 2028

12 years

Export credit period

14 days

Approval time (working days)
(subject to complete submission)

3 months

Install deadline after approval

How it works

- 1**  **Appoint an ECCPV-GC (Electrical Contractor with Class PV - Grid Connected)**
A registered electrical contractor handles design, installation and certification - your one-stop centre for the whole process, including liaising with Sabah Electricity (SE) on behalf of the consumer.
- 2**  **Apply through the EEISy (ECoS Energy Information System) platform**
Your contractor submits the application for you. The Commission charges no fee for this.
- 3**  **Receive SRATI (Solar Rakyat Approval to Install)**
Approval by ECoS within 14 working days (subject to complete submission). Installation must then start within 3 months.
- 4**  **Signing of Solar Rakyat Sabah Contract**
Consumer to sign a 12-year contract with SE prior to testing and commissioning. Solar Rakyat meter will subsequently be supplied by SE and to be installed by your contractor.
- 5**  **Install and commission**
Your contractor completes testing and commissioning (T&C), then uploads the reports to EEISy.
- 6**  **Receive SRATO (Solar Rakyat Approval to Operate) and start saving!**
Once approved to operate, exported energy earns bill credits.

How your bill is calculated

Net charge amount (RM) =

(Imported energy × Prevailing rate) – (Exported energy × Prevailing rate)

Good to know

 **Domestic consumers only**

Existing solar programme participants must cancel before applying.

 **Rooftop or porch only**

Ground-mounted installations are not allowed.

 **No application fee**

You pay only for equipment, installation and the bi-directional meter.

 **First-come, first-served**

Applications close once the 20MW quota is fully utilised.

 **Battery storage allowed (optional)**

Strictly for self-consumption — battery exports aren't permitted.

 **Credits are non-transferable**

Unused balances are forfeited at the end of each settlement period.

 **Zero upfront payment scheme**

Provided by the Sabah Registered PV Investors (SaRPVI).

 **Online one-stop platform (EEISy)**

Easy application through online web application platform. We are only one click away.

SOLAR RAKYAT SABAH

Memperkasa Kediaman, Menjana Tenaga

Fakta utama

5 kWac

Had bekalan Fasa Tunggal

10 kWac

Had bekalan Tiga Fasa

20 MW

Jumlah kuota sehingga tahun 2028

12 tahun

Tempoh kontrak

14 hari

Tempoh kelulusan (hari bekerja)
(tertakluk kepada penyerahan permohonan yang lengkap)

3 bulan

Tempoh untuk memulakan pemasangan selepas kelulusan

Cara Permohonan

- 1**  **Lantik ECCPV-GC (Kontraktor Elektrik Kelas PV – Tersambung Grid)**
Kontraktor elektrik berdaftar mengendalikan reka bentuk, pemasangan dan pensijilan sistem — bertindak sebagai pusat sehenti bagi keseluruhan proses, termasuk menguruskan urusan dengan Sabah Electricity (SE) bagi pihak pengguna.
- 2**  **Permohonan melalui platform EEISy (ECoS Energy Information System)**
Kontraktor anda akan mengemukakan permohonan bagi pihak anda. Tiada fi permohonan dikenakan oleh ECoS.
- 3**  **Terima SRATI (Solar Rakyat Approval to Install)**
Kelulusan akan diberikan oleh ECoS dalam tempoh 14 hari bekerja (tertakluk kepada penyerahan permohonan yang lengkap). Pemasangan hendaklah dimulakan dalam tempoh 3 bulan selepas kelulusan.
- 4**  **Menandatangani Kontrak Solar Rakyat Sabah**
Pengguna perlu menandatangani kontrak selama 12 tahun dengan SE sebelum Pengujian dan Pentauliahan (T&C). Meter Solar Rakyat kemudiannya akan dibekalkan oleh SE dan dipasang oleh kontraktor anda.
- 5**  **Pemasangan dan Pentauliahan**
Kontraktor anda akan melaksanakan Pengujian dan Pentauliahan (T&C), kemudian memuat naik laporan ke dalam EEISy.
- 6**  **Terima SRATO (Solar Rakyat Approval to Operate) dan mula berjimat!**
Setelah diluluskan untuk beroperasi, tenaga yang dieksport akan menjana kredit bil anda.

Cara Bil Elektrik Anda Dikira

Jumlah Caj Bersih (RM) =

$(\text{Tenaga Diimport} \times \text{Kadar Semasa}) - (\text{Tenaga Dieksport} \times \text{Kadar Semasa})$

Perkara Yang Perlu Diketahui

 **Untuk pengguna domestik sahaja**

Peserta program solar sedia ada perlu menamatkan penyertaan sebelum membuat permohonan.

 **Tiada fi permohonan**

Anda hanya perlu menanggung kos peralatan, pemasangan dan meter dua hala.

 **Sistem Penyimpanan Tenaga Bateri (BESS) dibenarkan (pilihan).**

Bateri hanya boleh digunakan untuk kegunaan sendiri. Tenaga daripada bateri tidak dibenarkan dieksport ke grid.

 **Skim tanpa bayaran pendahuluan**

Zero Upfront Payment disediakan oleh Sabah Registered PV Investors (SaRPVI).

 **Panel solar hanya boleh dipasang di bumbung atau anjung.**

Pemasangan di atas tanah adalah tidak dibenarkan.

 **Siapa cepat, dia dapat**

Permohonan akan ditutup apabila kuota 20 MW dipenuhi.

 **Kredit tenaga tidak boleh dipindah milik.**

Sebarang baki kredit yang tidak digunakan akan luput pada akhir setiap tempoh penyelesaian.

 **Platform Dalam Talian (EEISy)**

Permohonan yang mudah melalui platform dalam talian. Kami hanya satu klik daripada anda.
